

FICHA DE DATOS DE SEGURIDAD

SAFETY DATA SHEET

ALOE TATTOO STENCIL PREMIUM

English version nº 1

SECTION 1: Identification of preparation and company

1.1 Identificación of preparation:

Aloe tattoo stencil premium

1.2 Use

Cosmetic.

1.3 Identificación of company:

Details of the company responsible for palcing market:

RUFNER DISTRIBUCIONES S.L.

C/ Maracay 28. P.I. San Luis

Tlf.: + 34 952 241 616

web: www.aloetattoo.es

1.4 Emergency telephone:

Instituto Nacional de Toxicología y Ciencias Forenses

+34 915 620 420 (Información en español 24h/365días).

Únicamente con la finalidad de proporcionar respuesta sanitaria en caso de urgencia.

SECTION 2: Hazard Identification

2.1 Classification of the mixture:

2.1.1 Directive 67/548/EEC and Directive 1999/45/EC:

The classification of the mixture was carried out in accordance with Royal Decree 363/1995 (Directive 67/548/EEC) and the Royal Decree 255/2003 (Directive 1999/45/EC), adapting the requirements to Regulation (EC) 1907 / 2006 (REACH Regulation) pursuant to Royal Decree 1802/2008.

Harmful if swallowed

2.1.2 Regulation 1272/2008 (CLP):

The classification of the mixture was made under Regulation 1272/2008 (CLP), determines:

Harmful if swallowed

2.2 Label elements:

Based on Directive 67/548/EEC and Directive 1999/45/EC and Regulation 1272/2008 (CLP), the labeling elements are:

Pictograms: NA

Do not ingest. Keep out of reach of children. In case of accident to the Medical Toxicology Information Service, telephone 91 562 04 20.

2.3 Other hazards

NA

Section 4: First Aid Measures

4.1 Description of first aid measures :

If swallowed, seek medical advice immediately (if possible , show this label) . Never give anything by mouth to an unconscious person.

Inhalation

No relevant

For skin contact

No relevant

On contact with eyes :

It can cause irritation. Wash thoroughly the affected eyes with clean , fresh water for at least 15 minutes, until the irritation . Request immediate specialized medical care .

Ingestion:

Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen tight clothing such as a collar, tie, belt or waistband.

4.2 Most important symptoms and effects, both acute and delayed:

No symptoms or delayed effects . If acute symptoms are indicated in sections 2 and 11.

4.3 Indication of any immediate medical attention and special treatment needed immediately :

Not relevant .

SECTION 5: Firefighting

Means of Extinction:

No flammable substance. Where appropriate, use powder or CO2 extinguisher. In case of more serious fires, also alcohol-resistant foam and water spray.

5.2 Special hazards arising from the mixture:

No relevant.

5.3 Advice for firefighters:

Wear self-contained breathing systems and protective clothing. The case of fire and / or explosion avoid breathing fumes. Containers should be cooled with water to prevent the increase in vapor pressure.

SECTION 6: Accidental discharge

6.1 Personal precautions, protective equipment and emergency procedures:

No relevant

6.2 Environmental precautions :

Avoid contamination of surface or groundwater, and soil . Do not allow product to reach sewage system . In case of large spills or if the product contaminates lakes , rivers or sewers , inform the responsible authorities according legislation.

6.3 Methods and materials for containment and cleaning up:

Absorb spillage onto sand or inert absorbent (sawdust , earth, ...) and remove to safe place. Collect if possible in closed containers. Clean remainder with plenty of water. The resulting liquid can be disposed down the drain as a domestic landfill .

6.4 Reference to other section.

For waste, refer to section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling:

Do not use if you have lost or damaged the button. Comply with current legislation on safety and health at work . Do not eat , drink or smoke while handling. Avoid contact with eyes .

7.2 Conditions for safe storage, including any incompatibilities:

Avoid holding for extended periods to sunlight . The heat can increase the temperature of the containers. Keep away from flames, sparks and heat sources .

7.3 Specific end :

NA

SECTION 8: Exposure controls / personal protection

8.1 Control parameters :

Propylene glycol: 10 (mg/m³) (Tipo: TWA)

Glycerol: 15 (mg/m³) (Tipo: TWA)

Triethanolamine: 5 from ACGIH (TLV) (Tipo: TWA)

FICHA DE DATOS DE SEGURIDAD

SAFETY DATA SHEET

ALOE TATTOO STENCIL PREMIUM

English version nº 1

8.2 Exposure controls :

Eye protection with chemical goggles . Hygiene measures: Wash hands with soap and water, use gloves.

Eye protection / face protection : Wear eye protection tested and approved under standards such as NIOSH (U.S.) or EN 166 (EU).

Skin protection : Handle with gloves. Gloves must be inspected prior to use . Use proper glove removal technique (without touching glove 's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices laws. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it .

Body protection: Choose body protection according to their characteristics , the concentration and amount of dangerous substances, and the specific workplace, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance instead . specific work .

Respiratory protection: Respiratory protection not required . Where protection is desired Use respirators and components tested and approved under appropriate standards as NIOSH (U.S.) or CEN (UE).

SECTION 9: Physical and Chemical Properties

9.1 Appearance:	Paste
9.2 Odor:	NA
9.3 Solubility in water:	Partly in water.
9.4 Boiling point:	Not determined
9.5 Decomposition temperature:	Not determined.
9.6 Pressure / steam density:	Not determined
9.7: pH	NA
9.8 Explosive limits:	No flammable.

SECTION 10: Stability and reactivity

10.1 Reactivity:

No risk of ignition.

10.2 Chemical stability:

Stable under normal conditions of use.

10.3 Possibility of hazardous reactions.

NA

Redaction: January/2015

FICHA DE DATOS DE SEGURIDAD

SAFETY DATA SHEET

ALOE TATTOO STENCIL PREMIUM

English version nº 1

10.4 Conditions to avoid:

High temperatures.

10.5 Incompatible materials:

NA

10.6 Hazardous Decomposition.

No produce toxic gas in decomposition.

SECTION 11: Toxicological Information

11.1 Local effects:

Harmful if swallowed

Propylene glycol
Glycerol

LD50 oral (rabbit): 18500 mg/kg
LD50 oral (mouses): 4090 mg/kg
LD50 dermic (rabbits): 10000 mg/kg

Quaternium 15
Triethanolamine

LC50 oral (rats): 1550 mg/kg
LC50 oral (rabbits): 2200 mg/kg

11.2 Chronic toxicity
Triethanolamine

CARCINOGENIC EFFECTS: 3 (Not classifiable for human.) by IARC. MUTAGENIC EFFECTS: Mutagenic for mammalian somatic cells. May cause damage to the following organs: kidneys, liver, skin.

Propylene glycol

May cause damage to the following organs: central nervous system (CNS).

Glycerol

May cause damage to the following organs: kidneys.

11.3 Effects on humans:
Triethanolamine

Hazardous in case of skin contact (permeator), of ingestion, of inhalation. Slightly hazardous in case of skin contact (irritant).

Propylene glicol

May affect genetic material (mutagenic). May cause adverse reproductive effects and birth defects (teratogenic) based on animal test data

Glycerol

Glycerin is transferred across the placenta in small amounts. May cause adverse reproductive effects based on animal data (Paternal Effects (Rat): Spermatogenesis (including genetic material, sperm morphology, motility, and count), Testes, epididymis, sperm duct). May affect genetic material.

SECTION 12: Ecological Information

12.1 Acute aquatic toxicity:

Propylene Glycol

LC50 Fish: >5000 mg/l 24 hours [Goldfish].
>10000 mg/l 48 hours [guppy]. >10000 mg/l 48
hours [water flea].

Glycerol

Ecotoxicity in water (LC50): 58.5 ppm 96 hours
[Trout].

12.2 Persistence and degradability:

Not available.

12.3 Potential biacumulación

Not available

12.4 Mobility in soil

Not available

12.5 Results of PBT and vPvB assessment

Not available

12.6 Other adverse effects

Not available

Section 13: Disposal Considerations

13.1 Disposal:

Wastes and empty containers without cleaning should be handled and disposed of according to local / national regulations. Where appropriate, returned to the manufacturer or disposed of in accordance with state, regional and local legal requirements and applicable environmental regulations. Empty containers can be returned to the manufacturer or should be recycled or disposed of through a management facility approved waste.

Disposal of empty containers: Containers can be managed and disposed of by incineration or landfill as domestic containers and according to local / national regulations.

13.2 Disposal considerations:

The remaining liquid can be disposed to sewage after dilution with water, but according to local regulations.
